ABOUT THE INSTITUTE:

Bheemanna Khandre Institute of Technology (Formerly known as Rural Engineering College), Bhalki in Bidar district was established in the year 1982, approved by AICTE, New Delhi affiliated to VTU, Belgaum, accredited by NBA, New Delhi. The institute is located at the northern tip of Karnataka. It is one of the leading Engineering institute in Karnataka with a lush green campus of 35 acres, with a built up area of 50000 m², fully networked Wi-Fi campus offering BE courses in Chemical, Mechanical, E&CE, CSE and Civil Engineering. M.Tech in GTE, WRMC, DCN, CSE as well as MCA.

The institute has got three boy's hostels accommodating 700 boys and two girls hostels accommodating 350 girls. In 34 years of its existence over 8500 graduates have emerged from the portal of BKIT, Bhalki. The college has dedicated and experienced staff as per AICTE norms, well equipped laboratories, and extensive library having collection of 60000 volumes & 269 Journals and 222 e-Journals.

ABOUT THE DEPARTMENT:

The department of Chemical Engineering was established in the year 1994 and is providing full time B.E degree in Chemical Engineering, accredited by National Board of Accreditation New Delhi. The department has several laboratories equipped with state of art equipment, including ASPEN PLUS University version 7.1, Water quality analysis lab and Departmental library. The department faculty members are well qualified and constant pursuit of learning recent developments in their respective fields. The faculty is actively engaged in research and has published papers in national and international journals and conferences. The alumni of the department have placed in the higher echelons of the society and technical world.

ABOUT THE WORKSHOP:

Security of freshwater is emerging as a global issue owing to steadily increasing use of limited resources by a growing population, coupled with diminishing availability due to inadequate management, deforestation and increasing pollution. To achieve a secure and sustainable water future, the efficiency of current water supply and usage needs to be improved.

Objectives:

The main objective of this workshop is to create awareness among faculty, industrial person, UG/PG students and common man about one of the most challenging field water quality assessment and management.

Workshop covers:

- Environmental chemistry
- Wastewater treatment technology
- Water resources engineering
- Water quality analysis
- Advances in water purification
- Need of the day
- Water quality awareness policies and regulation
- Water resource management
